ASSISTANT/ASSOCIATE PROFESSOR OF PSYCHIATRY – Senior Neuroimaging Scientist

The Department of Psychiatry at The University of Texas Health Science Center San Antonio is recruiting senior neuroimaging scientist for a tenure track position in the Department of Psychiatry. The candidate must have a Doctor of Philosophy in a relevant field and considerable experience in functional magnetic imaging research in psychiatric disorders, as well as a history of extramural funding of such research. The applicant should show ability to establish a federally funded program of research investigating the neural mechanisms underlying treatments for pediatric mood and anxiety disorders. The applicant should have a history of obtaining grants, publishing papers, and presenting results at national conferences. The applicant should also have experience providing consultation on neuroimaging study design, implementation, and analysis to other members of the Department of Psychiatry. Mentorship of postdoctoral fellows, residents, and medical students in the development their neuroimaging careers will be critical.

Applications will be accepted until suitably qualified candidates are found.

The department has strong educational, research and clinical programs in an attractive, culturally rich city situated on the edge of the Texas Hill Country, with a pleasant climate, an excellent public school system and abundant recreational activities. Interested individuals should forward their curriculum vitae to Jason Schillerstrom, M.D., Department of Psychiatry, Mail Code 7792, The University of Texas Health Science Center San Antonio, 7703 Floyd Curl Drive, San Antonio TX 78229-3900, phone 210-567-5453, FAX 210-567-6941.
