Learning Objectives

To describe how isolating alterations in brain function can inform our understanding of social anxiety disorder

To describe a network of brain regions that are altered during social interactions in youth with or at risk for social anxiety.

The UT Health Science Center at San Antonio School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians. The UT Health Science Center at San Antonio School of Medicine designates this live activity for a maximum of 1.25 *AMA PRA Category 1 Credits*[™]. Physicians should claim only the credit commensurate with the extent of their participation in the activity. The Texas State Board of Psychologists recognizes each session for Category 1 Continuing Education Credit.
