Shannon Wiltsey-Stirman, PhD
Assistant Professor
Implementation and Sustainability of a Trauma-Focused Treatment for PTSD in Public Mental Health Systems

Learning Objectives
To describe research findings regarding the impact of different training and consultation strategies on therapists and patient level outcomes
To explain recent research findings regarding the sustained use of trauma-focused treatments for PTSD in public mental health systems
To examine theory behind potentially effective strategies to promote sustained use of evidence-based psychosocial interventions

The UT Health Science Center at San Antonio School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians. The UT Health Science Center at San Antonio School of Medicine designates this live activity for a maximum of 1.25 AMA PRA Category 1 Credits™. Physicians should claim only credit commensurate with the extent of their participation in the activity. The Texas State Board of Psychologists recognizes each session for Category 1 Continuing Education Credit.
