PSYCHIATRY LECTURE

**Daniel Foti, PhD**

**Assistant Professor, Purdue University**

Impaired error processing in psychosis: Links with illness characteristics, course, and treatment response

## Learning Objectives

To understand how EEG/ERPs can be utilized to assess error processing

To link neural deficits in error processing with symptom dimensions and functional outcomes

To understand implications for long-term course of illness and treatment outcome

The UT Health Science Center at San Antonio School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians. The UT Health Science Center at San Antonio School of Medicine designates this live activity for a maximum of 1.25 AMA PRA Category 1 Credits. Physicians should claim only credit commensurate with the extent of their participation in the activity. The Texas State Board of Psychologists recognizes each session for Category 1 Continuing Education Credit.
